FORD TRUCK ECONOMY RUN

This week the Ford Motor Company and Ford Dealers of America are launching the nationwide Ford Truck Economy Run, a comprehensive truck operating study that will cover a six-month period ending December 31, 1950, according to John S. Grinels of Grinels Motor Company.

The Ford Economy Run, Grinels stated, will include thousands of Ford Truck owners all over America who will keep complete day to day records of their actual truck operations, including every mile travelled, every load hauled, every gallon of gas and oil consumed and total repairs and maintenance.

Claude Johnson and W. C. Ouids will be Appomattox's entrants in the Ford Economy Run, Grinels announced. Johnson's truck, a F-7 Van Model, and Ouids' truck, a F-6 Platform Model, can be identified by their orange and black colors which are mounted on all trucks throughout the nation that are participating in the Run.

Johnson and Ouids were selected because they keep operated trucks in Appomattox a number of years and because of their experience and familiarity with trucking problems.

"We're pleased to be a part of this big truck economy study, which will accumulate a large amount of facts and figures important to truck operators," said Johnson and Ouids. "Nearly every business uses trucks, and of course any study that might show how they can be used more efficiently and economically should be of great interest to truck users everywhere."

Every Ford Truck model, from 95-horsepower Pickups to 145-horsepower Big Jobs, and every truck-using vocation will be represented in the Ford Truck Economy Run in sufficient numbers, Grinels declared, so that results are expected to demonstrate not only the economy of Ford Truck operation, but to establish a realistic "yardstick" of truck operating economy for all truck-using industries as well.

It is possible that the study will reveal interesting facts and figures as to what models and equipment items are best suited to specific types of duty, Grinels added, and perhaps may indicate the need for additional new truck models, such as the Ford Parcel Delivery Truck, which was recently introduced in the multi-stop delivery field and which doubles the load area of conventional panel trucks without increasing wheelbase length.

Birthday Party at Stonewall

Barbara Jeanne Lee, daughter of Mr. and Mrs. Tilton Lee, celebrated her seventh birthday at her home Sunday afternoon. A color note of yellow and white was accented in decorations and refreshments. Swimming was enjoyed, games were played and prizes were awarded to winners, prior to which guests were invited into the dining room and served ice cream, cake, nuts and other refreshments. The table centerpiece consisted of a large yellow rose with white ribbon bows, on which a "happy birthday" greeting was inscribed. Two large white candles placed in rosebud holders surrounded the centerpiece.

Miss Nancy Wheeler cut the birthday cake. Each child received a favor. Little Joey and Tommy Burnett presented the gifts in a ribbon bedecked basket. Approximately 34 guests were present.
